

MSDS

Trade name IntelliOhm™ FH 230

Manufacturer: Molded Heating AB, Svarvarvägen 6, 861 36 Timrå, Sweden Tel: 46 (0) 761690792 Fax: 46 (0) 735275412 Editor: Claes-Göran Gustafsson.

1. Composition / Subject Classification

Chemical nature: Ethylene copolymer, polyethylene, additive CAS No: 9002-88-4

2. Hazards

None known.

3. First Aid

Move to fresh air if fumes from overheating or combustion are inhaled. For splashes in eyes flush with water. If swallowed, drink milk or water. Major damage from above, seek medical attention.

4. Fire-fighting measures

The material is not flammable but combustible. Extinguishing Media: CO₂, powder, foam, water.

5. Spill / release

Environmental precautions: None

6. Handling

No data available.

7. Personal equipment

None required.

8. Physical / Chemical properties

Odour: Acrylic
Solubility: Swelling in liquid hydrocarbons.
Insoluble in water

9. Stability / reactivity

Avoid strong acids and oxidizing substances, petroleum products.

10. Toxicological Information

Any classification according to the update 2001:3 1994:2

11. Ecological Information

Non-hazardous substance according to KIFS 1994:2

12. Waste management

As with most thermoplastic resins, this product can be recycled. Recycling is preferable to landfill or incineration. Not classified as hazardous according to 91/689/EEC.

13. Transport information

Not classified as dangerous under transport regulations.

14. Existing provisions

According KIFS 1994:12 with recent change in 1993:3 KIFS, need not labeled product.

15. Additional Information

The above statement is based on the company's most recent knowledge on applicable safety.

16. Released

2010-06 -03
